Profile

A fresh graduate with a high enthusiasm for the system development and eager to acquire and practice the corresponding industry-level skills. I dedicate my time to understanding new technologies and creating innovative solutions. I possess an up-front approach and aspire to be able to build a successful professional career.

Skills And Familiarities

Programming Languages
JavaScript/TypeScript | C | C++ | C# | Python | SQL

Software Development
Git | GitHub | OOP | SDLC | MVC

Frameworks and Libraries
ReactJS | NodeJS | ExpressJS

Database
MongoDB | Firebase | SQLite3

Web Technologies
HTML | CSS | TailwindCSS | Bootstrap | SCSS

Personal
Adaptability | Flexibility | Teamwork | Communication

Projects

E-Commerce
Worked on Front-End and Back-End Development
- Developed a scalable e-commerce web application to help people enhance their shopping experience via online.
- Utilized ReactJS and ExpressJS for a robust architectural foundation. Redux was used for improved state management, while Axios was used to facilitate better interactions with the APIs.
- Technologies used: ReactJS, ExpressJS, Redux, MongoDB
- Project repository: https://github.com/Shoishob007/E-Commerce ⬈

Authentication App
Worked on Front-End and Back-End Development
- Developed a web application offering a fast and secure authentication and authorization scheme.
- The MERN stack was used with the Redux tool to improve state management. Firebase was used as both a storage and OAuth protocol provider.
- Technologies used: ReactJS, ExpressJS, Redux, MongoDB, Firebase, TailwindCSS
- Project repository: https://github.com/Shoishob007/auth-app ⬈

CRUD101
Worked on Front-End and Back-End Development
- Developed a web application to manage CRUD operations on a structured dataset and displaying them accordingly.
- Designed API routes for CRUD operations along with some additional features, integrating server-side data and local JSON files. Utilized Chart.js for dynamic data visualizations.
- Technologies used: ReactJS, ExpressJS, SQLite, TailwindCSS
- Project repository: https://github.com/Shoishob007/task101 ⬈

Chat-App
Worked on Front-End and Back-End Development
- Developed a web application offering chat-based real-time communication.
- Created a context API and used all over the application for better performance and global state management.
- Project repository: https://github.com/Shoishob007/chat-app-react ⬈
- Technologies used: ReactJS, JavaScript, Sass, Firebase

Education

Chittagong University of Engineering and Technology   2018/01 – 2024/01
BSc. in Computer Science and Engineering

Rajbari Govt College   2016/04 – 2017/11
HSC in Science
